Rochester Commercial Nurseries.

ESTABLISHED, 1830.

(FORMERLY H. E. HOOKER & Co,)

WM. S. LITTLE'S

SEMI-ANNUAL CIRCULAR

OF

WHOLESALE PRICES,

FOR

THE AUTUMN OF 1873.

LIBRARY OF CONGRESS
DUPLICATE
EXCHANGED

ROCHESTER, N. Y.
WM. S. FALLS, BOOK AND JOB PRINTER, 9 ELWOOD BLOCK.
1873.

ADVERTISEMENT.

Our Nursery Stock passed through the last severe Winter without receiving any injury whatever that we have been able to perceive, with the exception of a few half-hardy ornamental trees and new evergreens, which were partly frozen back. All kinds of trees have made a good growth this Season and on account of more than a fair share of dry weather in the early part of the Summer, they seem to be already well ripened up.

We send this Circular as usual to all our Customers, and hope to hear from all those who contemplate purchasing trees or plants this fall. We quote **First Class Trees** at what we believe to be *fair current prices* for good articles.

On the following pages we enumerate, as usual, those articles that we offer for sale in considerable quantities at wholesale rates. To those who *order early* we can promise good specimens of all the items mentioned.

We print in **Full Face Type,** such as we happen to have in good supply of the most desirable varieties, and to which we desire to call special attention.

TERMS AND CONDITIONS OF SALE.

The prices quoted in this List are expected to apply only where the specified quantities are taken. We reserve the right to charge a higher rate whenever any *variety* shall be ordered in undue or extraordinary proportion—or whenever any long list of varieties shall be required, consisting of other than the staple sorts—but as far as possible the wishes of our customers shall be considered without extra charge, and certainly whenever it can be done without detriment to our assortment.

PACKING.—This is performed in the most careful manner by experienced workmen, who have been engaged in this department of our Nursery for many years past.

The cost of boxes, &c., for packing, will be charged in all cases as usual. This amounts to but a small sum to the purchaser, while to us in the aggregate, it is a large outlay. *This rule cannot be departed from.* The cost of packing amounts to *about* 75 cents to $1, per 100 trees, varying, of course, with the size of the stock.

Dealers will be accommodated on the usual terms.

No charge is ever made for cartage.

☞ **Transportation.**—In furnishing Trees, etc., on the terms of this Circular, we wish it distinctly understood that we cannot be responsible for the accidents of transportation. All articles after leaving the nursery in good condition are entirely at the risk of the purchaser. We take great pains in packing, and except in case of accident or gross carelessness—our packages will endure the longest journey in perfect safety.

TERMS, *Cash*, except by special agreement.

☞SPECIAL RATES WILL BE GIVEN ON APPLICATION, TO THOSE WHO MAY WISH TO ORDER IN LARGER QUANTITIES THAN THOSE QUOTED IN THIS LIST.

Correspondence is solicited from all those who are interested in purchasing or planting Trees, either in *large or small* quantities.

Addres,

WM. S. LITTLE,

Commercial Nurseries,

ROCHESTER, N. Y., August, 1873.

SPECIALTIES AND NOVELT

We note, as usual, a number of articles, both *New* and *Old*, of which excellent Stock this Season, and particularly recommended to our Custome ence being made also to the preceding pages.

PEAR TREES—Scarce Varieties.

We cultivate as *Specialties*, the following fine sorts, which are not usually grown except in small quantities, at most of the nurseries, viz:

THE MT. VERNON, (which in addition to its other good qualities, proved very hardy last Winter.)—For full information, testimonials, &c., please write for our "Special Circular."

BEURRE CLAIRGEAU—A fine showy variety, now attracting considerable attention as a market fruit.

BEURRE BOSC—A well known variety of the *very first merit.* It is so shy a grower that we can only succeed in raising the trees by top grafting.

Besides the above, we offer this year an uncommonly fine stock of Standard and Dwarf Pear Trees, of all the most approved sorts.

THE "EMPRESS EUGENIE" CHERRY.

We continue to recommend this comparatively new acid Cherry. It is of large size, beautiful appearance and excellent quality. The tree is a strong thrifty grower. Our young trees have produced for four years consecutively regular and enormous crops of fine fruit. Price, $6 per dozen.

GRAPE VINES.

The following newer varieties are having an extensive sale. We can furnish excellent plants in pretty large quantities, viz: UNA, (white); CROTON, (white); MARTHA, (white); ROGERS' HYBRIDS, ie.: Nos. 1, 4, 9, 15, 19; Salem, &c.

In the ORNAMENTAL DEPARTMENT, we give a list of *Beautiful* and *Rare Trees* and *Plants*—comprising an excellent selection for recommendation, some of them quite scarce in the nurseries. All of them are fine plants.

PURPLE LEAF BEECH—we can this year furnish a limited number of plants of good size. [See page 4.]

CUT LEAF WEEPING BIRCH—the handsomest of weeping trees and hardy.

LIQUIDAMBER, (or SWEET GUM.) Downing says, "We hardly know a more beautiful tree in every stage of its growth and during every season of the year."

PYRAMIDAL OAK—quite a rare and very beautiful tree of remarkble growth.

HAWTHORNS—the double-flowering varieties, including the new *Double Scarlet.*

VIRGILIA LUTEA—the handsomest of all the trees producing *pea-shaped* flowers.

MAPLES—a handsome stock, including some of the newer varieties.

ELMS—PURPLE-LEAF and VARIEGATED—the former with small dark-colored leaves; the latter having leaves curiously blotched with yellow; quite new.

MAGNOLIA LENNE—I offer a few good plants of this fine new variety. The flowers are large and of a *deep purple* color. (See page 5.)

MAGNOLIA SOULANGEANA—some beautiful plants of this fine Chinese Hybrid.

BLOOD LEAF PEACH—Quite a striking novelty. The leaves are of a reddish purple color, producing a pretty effect. The fruit is said to be of a good quality. [See page 3.]

SOME NEW SHRUBS—NEW DOUBLE FLOWERING DEUTZIA, (pure white); SPIREAS, AUREA and THUNBERGII; WEIGELIAS, VARIEGATED-LEAVED and HORTENSIS NIVEA, (pure white.)

ROSES,—a specialty—[See previous page.]
